

## Shamokin Secondary Course Overview

**Course:** History Seminar

**Teacher:** Mr. Grybos

### Course Introduction:

History Major is a course that focuses on key social studies skills. It is designed as an intensive research, writing, presentation, and project-based class that will introduce students to the practice of conducting research in history, orienting their research into written work, and orally presenting their research effectively to an audience. Students will also have the opportunity to observe and critique their peers' work while also working closely with the teacher. Our class will move through the various steps of the research process, select topics, create a thesis, use and evaluate primary and secondary sources, organize and write drafts, self and peer-critique, create and interpret data graphs, and more. In sum, the students will enjoy a year of real social studies skills actualized through student-centered project-based learning. This will promote quality participation of students in civic life and develop their ability to better address and understand society.

<p><b>Instructional Plan:</b></p> <p>Students are required to bring their notebook with them to class each period. Every class period will begin with a bellringer that relates to previously learned material. Each lesson follows the Gange process of gaining attention, stating today’s objective(s), recalling information, presenting new information, guided &amp; independent practice, and assessment. We will use several texts and resources selected. Students will be assessed by various assignments and projects that include essays, powerpoints, formal videos, vodcasts, formal written historic submission, polls/surveys, infographics, website designs, and even mock debates. Students will be assessed through these various projects and assignments.</p>
